

UPNVJ Leadership Receives Audience PT. Indonesian data

Monday, 10 February 2020 17:06 WIB

Chancellor of UPN Veterans Jakarta, Dr. Erna Hernawati, AK, CPMA, CA received an audience agenda and hospitality from a number of PT.katadata Indonesia management, namely vice president David Herlambang and PT Katadata Indonesia staff, Monday (10/02/2020) at Nusantara 1 UPN Veteran Jakarta.

The arrival of a number of management of PT. Katadata Indonesia is on the audience and gathering agenda in supporting the acceleration of student competence in tertiary institutions with data.

"We realize the importance of collaborating between academic institutions and corporations in creating a contribution, based on accountable data, for the sake of building the nation's future generations." David said

Apart from that David also said that with this audience in the future we can work together, especially in the field of digital libraries, because students and lecturers will get many benefits in obtaining data.

The digital library has a collection of books mostly in digital format and which can be accessed by computer (<https://id.wikipedia.org/wiki/Komputer>) . This type of library is different from the conventional type of library which is a collection of printed books, micro films (microform and microfiche), or a collection of audio, video cassettes, etc. The contents of the digital library are on a server (<https://id.wikipedia.org/wiki/Server>) computer that can be placed locally, or at a remote location, but can be accessed quickly and easily via a computer network (https://id.wikipedia.org/wiki/Jaringan_komputer) .

Apart from that, the UPNVJ Deputy Chancellor for Academic Affairs, Dr. Inter Venus, MA, Comm. He said that all institutions capable of providing data were very relevant, very important, very supportive for universities, especially research. The presence of said data to UPNVJ has good value because it can provide convenience in providing data that can be used as a basis for research.

Venus also added that in the future if there is compatibility with the needs of UPNVJ, a collaboration process will be carried out.
