

After Dark Comes Light, Happy Kartini's Day

Tuesday, 21 April 2020 20:10 WIB

HumasUPNVJ - Exactly today, Tuesday 21 April 2020 is celebrated as Kartini's Day. There are many ways we can do to commemorate Kartini Day, one of which is by giving our best work together even though we are still #dirumahaja during the current pandemic. What we can do right now is to encourage and strengthen one another to remain optimistic that this pandemic will end soon.

There are lots of Kartini's quotes made in the book "After Dark Comes Light". One of Kartini's quotes that we can use to describe the current situation in the midst of the Covid - 19 pandemic. This quote encourages us that everything will pass. "There is no cloud in the sky that lasts forever, there is no way the weather will continue to be bright, after the night is pitch black, the morning is born bringing beauty." Human life is similar to nature. These words instill a sense of optimism that we will surely pass today's test.

Kartini is now gone, but her fighting spirit should not just fade away. Keep going young Kartini. Happy Kartini's Day.
