This is also my first experience organizing in the world of lectures, so to be honest I was a bit unsure about starting this organization but thanks to their support and prayers. Thank God everything can go well. The grief so far doesn't seem to be as much as Sukanya's, but the grief that I feel each member has schedules and needs that make it difficult for us to find the right time to carry out *the project* and sometimes there are those who are unable to carry out *the project* or there are technical errors, but from all of that everything is going really wellâ€¢. he said
