

Keep Working in the Midst of a Pandemic, UFO Holds a Virtual Exhibition Titled "IRONY BEHIND NEW NORMAL"

Wednesday, 23 September 2020 15:05 WIB

HumasUPNVJ - There were many impacts felt during this pandemic, all activities were carried out *online/virtually* as well as photo exhibitions. Works of art must also be able to adapt by producing works that are different from usual.

The emergence of various digital media has indeed made art able to reach a wider audience than before in an easier way. Even though it doesn't only present a photo exhibition, from an article on the online news site Republika, EventXtra Co-Founder Sum Wong said that due to the pandemic, 90 percent of large-scale exhibition activities had to be postponed or even cancelled. While the rest becomes virtual. This is an extraordinary situation due to this pandemic, which makes virtual exhibitions a solution amidst the ban on crowds during social restrictions and physical restrictions due to the Corona pandemic. UPN Photography (UFO), one of the Student Activity Units, is again holding a **Virtual Exhibition Batch VII UFO Veterans Jakarta** with the theme **"IRONY BEHIND NEW NORMAL"** which means *the new normal reality for middle to lower class people who ignore health protocols*. It will be held for five days starting from today, Tuesday 22 September 2020 to Saturday 26 September 2020.

The event was opened with remarks from M. Zydane Ulir Rizqi as the chief executive, "The purpose of this virtual exhibition is to show the general public. That for them the lower middle class, this pandemic and this new normal they put aside the health protocol for the sake of their economic wheels. With this virtual exhibition, I hope that in the future everyone will help each other and continue to implement the Health Protocol. Because if we set aside health protocols during this pandemic it will not only endanger ourselves but also endanger the people we care about. Hopefully this pandemic will pass quickly so we can all be reunited with our relatives." he said

The activity continued with remarks from Izhar Yusuf Siregar as chairman of UFO, "This event is the third UFO work program this year. This class VII virtual exhibition is one of the conditions for becoming a permanent member. We don't lose our enthusiasm to keep working and have quality in the midst of a pandemic." Izhar said

The Virtual Exhibition of Batch VII UFO was inaugurated directly by the Chancellor of UPNVJ, "I am happy to see the creativity of UFO students even though it is virtually like this. UFO in my opinion has its own track record, this UFO is consistent in carrying out positive activities to continue working so that it can see and explore the potential that exists in its members. Erna said

The activity continued with the display of the work of the young UFO members.
