

Dr. Aulia UPNVJ FK Lecturer, Accompanying Deputy Mayor of Depok Elected Mohammad Idris Inaugurates Health Clinic in Pancoran Mas Region

Tuesday, 16 February 2021 10:44 WIB

HumasUPNVJ - Siarandepok.com â€” Yemima Medika Outpatient Clinic (KPRJ) was inaugurated on Monday, 15 February 2021 at 11.00 WIB. Yemima Medika Pratama Clinic is a general clinic and maternity hospital led by Budi Wahono as Director.

The inauguration of the clinic and ribbon cutting was attended directly by the Mayor of Depok, Mohammad Idris and the elected Deputy Mayor of Depok, Imam Budi Hartono along with the local sub-district and village heads. Yemima Medika Clinic is located in the Nature Reserve, Pancoran Mas, Depok City.

The first speech was given by Budi Wahono as the director of the Yemima Medika Clinic. He said Yemima was opened in mid-2020 and the Mayor of Depok had just cut the ribbon today (15/2/2021).

"Yemima Medika as a form of our support to contribute in the field of health services," said Budi.

Budi Wahono hopes that Yemima Medika will join hands with the Depok City Government to create a healthy Depok City. So, it can gradually build a quality service.

Furthermore, the second remark was given by Mohammad Idris as Mayor of Depok who was also present at the inauguration.

"I would like to thank the Yemima Outpatient Clinic as a rule, it has complied with the procedure for appreciating the orderly administration carried out in permitting the operation of this clinic which is part of the health service in Depok City to make it a city where we want health services to be as prime as possible,"

said Mohammad Idris in his speech.

Idris said that the recovery of residents or patients is not only treatment and medical therapy, but also health facilities. Sometimes, health facilities that do not meet standards can reduce patient immunity because standards are psychologically disrupted. Therefore, we hope that this clinic will become part of us in providing health services, especially in this area.

Depok City Government continues to improve health services in Depok City. Where soon will be carried out the operation of the eastern part of the Hospital, health centers, clinics, and all hospitals from the Depok City Government Health Service. We also continue to improve Covid-19 services to overcome Covid-19 in the city of Depok.

"Recently, there has been a sharp increase from 30,000 in total in the city of Depok. Thank God, around 26,000 have been declared cured and there are currently more than 4,500 active patients. For this reason, we continue to improve health services. We also ask for the assistance of this clinic for public health services," he continued.

Not only that, the Depok City Government is also trying to provide ambulances in the sub-district as a form of Covid-19 service.

"Health protocols must also be considered by this clinic in health services. Congratulations and success for the operation of the Yemima Medika Clinic," concluded Mohammad Idris.
