

Reviewing the 2021 UTBK Health Protocol, UPNVJ Receives a Visit from the Head of the Depok City Satpol PP

Tuesday, 13 April 2021 14:39 WIB

HumasUPNVJ - In an effort to prevent the transmission of Covid-19, UPN Veteran Jakarta received a visit from the Depok City Public Service Police Unit (Satpol PP) who is also a member of the Depok Covid-19 task force.

This visit was carried out to monitor the implementation of the health protocol that had been implemented by the UPN Veteran Jakarta UTBK center.

"We came with the aim of monitoring and supervising the implementation of the Covid-19 prevention health protocol for the implementation of UTBK at UPN Veteran Jakarta, as long as our monitoring is that the implementation of UTBK is going well and implementing health protocols. We thank all organizers who are able to work together to always implement the applicable health protocols," said the Head of Depok City Satpol PP, Lienda Ratnanurdianny at UPN Veteran Jakarta, Pondok Labu Campus, Tuesday (13/04/21).

During his visit, Lienda and his staff were received by the vice-chancellors of UPN Veterans Jakarta for assistance to the location of the exam room. Monitoring is carried out from the entrance to the test location, waiting room to the exam room.

UPN Veteran Jakarta itself has carried out health protocols in the campus environment from before to the start of the 2021 UTBK implementation. The health protocol process starts with the obligation to wear a medical mask, bring personal hand sanitizer, check body temperature, wash hands before entering the test location, facilities are available with respect to keeping a safe distance, and provide gloves for UTBK participants.

During his visit, Lienda also advised all participants to follow the existing health protocols and maintain health.

"The pandemic is not over yet, stay alert to the transmission of Covid-19, therefore, prioritize personal health protocols wherever and whenever we carry out activities. Especially for prospective UTBK participants to continue to maintain their health, seeing that the weather is not good and the majority are fasting, hopefully everything will go well and according to plan," Lienda said.
