

Establishes a Covid-19 Vaccine Center, Suyono: UPNVJ Makes It Easy for Us to Get Vaccines

Saturday, 31 July 2021 15:46 WIB

HumasUPNVJ - The Covid-19 vaccination was held by the Jakarta Veterans National Development University (UPNVJ) aimed at children aged 12 years and over, on Saturday (31/07/21).

It was recorded that thousands of people took part in vaccinations at UPNVJ's Pondok Labu Campus, one of which was Abi Fajar Saputra, a 12-year-old vaccination participant who was quite enthusiastic about participating in the program.

Abi came to the location independently with the hope that giving the vaccine could break the chain of transmission of Covid-19.

One of the UPNVJ vaccination participants

"The vaccine process is easy, the service is also good and the staff are friendly. Hopefully with this the pandemic will end soon, there will be no more sad news because of Covid-19 and everyone can return to health," said Abi.

Not only Abi, Suyono, who is elderly, has not lost his enthusiasm to take part in the vaccination stages at UPNVJ.

Suyono said that the vaccination was quite helpful because he found it quite difficult to get the vaccine in the environment where he lived.

"I am happy and feel very helped by the vaccine program at UPNVJ. The service is quite good while continuing to carry out the health protocol. Hopefully, after all this is healthy, there will be no significant effect of the vaccine," said Suyono.
