HumasUPNVJ - A new history of the Doctor Professional Education study program (FK) at the Jakarta Veterans National University (UPNVJ) has been accredited with the title of Excellence.

Based on the decision of the Independent Accreditation Institute for Indonesian Health Higher Education (LAM-PTKes) Number 0380/LAM-PTKes/Akr/Sar/IX/2021, the UPNVJ Medical Professional Education Study Program was declared accredited Superior or Very Good/Excellent as of September 24, 2021.

"After so many days of waiting, today is a happy day for all of us, the day when Accredited Medical Faculty excels," said UPNVJ Rector Dr. Erna Hernawati, Ak, CPMA, CA, CGOP in her meeting with the Dean, Deputy Dean and Chair of the Accreditation Committee at the UPNVJ FK Building, Friday (01/10/21).

The results obtained by FK are not a short struggle, but have started since FK was established 28 years ago, so this is a new history for UPNVJ FK. So I would like to thank all parties including the predecessors from the Faculty of Medicine and all the staff who have contributed so that this extraordinary achievement is achieved, "said the Chancellor.

The Chancellor in this case also understands that the obstacles faced by FK are not easy, but with all the struggle and good intentions everything can run smoothly and get the best results.

"All of these obstacles turned out to have a silver lining because so far we have only had good intentions. We have good intentions for students, because if the FK accreditation is superior, it will be very beneficial for students," he added

"All of these achievements are due to the assistance of various parties. First, of course, from the hard work of the Faculty of Medicine itself who has been fighting for the best, then the second, of course, is because of the prayers of other people who want this Faculty of Medicine to excel," said the Chancellor to the Dean of the Faculty of Medicine and his staff.
