

# INTERNATIONAL SEMINAR, NATIONAL RESEARCH RESULTS AND SERVICE TO THE COMMUNITY (The 3rd ICIMCIS, 4th SEINASIKESI, 3rd SENABDIKOM)

Thursday, 28 October 2021 15:06 WIB

**HumasUPNVJ** - Faculty of Computer Science UPN Veteran Jakarta is again holding an International Seminar - National on Research Results and Community Service which is held *online* . (28/10)

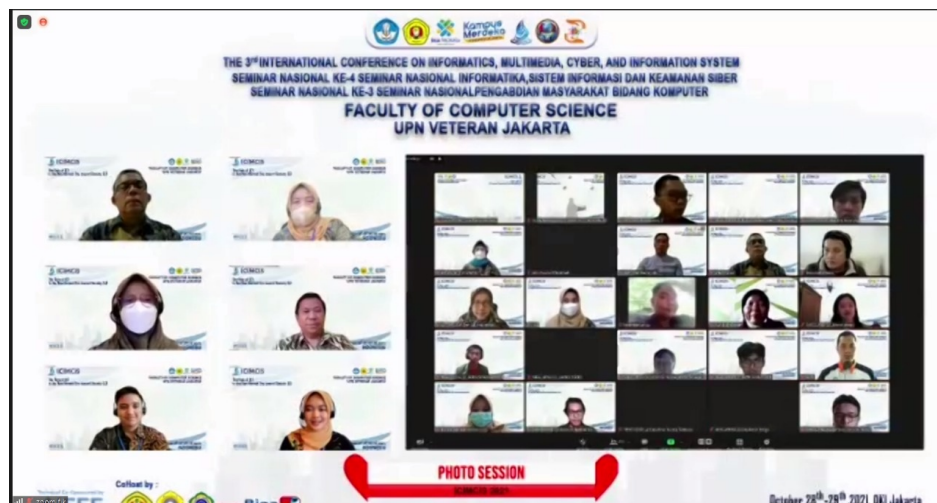

This seminar is an annual routine activity carried out by the Faculty of Computer Science UPNVJ. This activity took place virtually which was attended by participants from various countries and universities in Indonesia. The 2021 international and national seminar activities (ICIMCIS, SEINASIKESI, SENABDIKOM) were attended by 650 participants ( *presenters* and *non - presenters* ) from various countries. This conference is a scientific meeting in the field of information and communication technology (ICT) at international and national level, where researchers and practitioners can disseminate the results of their latest research and service and at the same time discuss current issues in the ICT field, especially problems in the IT, IS, Multimedia and *Cyber* fields. This conference is also a forum for gathering ideas from thinkers which can be in the form of pure and applied thoughts. Several researchers who will disseminate their

research results come from various well-known universities in Indonesia and abroad. Through this international and national conference, it is hoped that it will become a forum for lecturers, teachers, researchers and practitioners in the field of information and communication technology from all over Indonesia and universities abroad, in exchanging information about the results of the latest research they have done. .

The activity was opened with remarks by the Dean of FIK UPNVJ, Dr. Ermatita, M.Kom, "The 3rd international conference which was held *virtually* by the UPN Veterans Jakarta Faculty of Computer Science carried the theme "The Role of ICT in the *New Normal* Era Towards Society 5.0". This theme represents a super-smart society, where technologies such as big data, *Internet of Things* (IoT), Artificial Intelligence (AI) and Robotics are integrated into every industry and across all social segments. although it is still being carried out virtually because the COVID-19 pandemic seems not to have ended, it is hoped that this 3rd international conference can strengthen cooperation and become a forum for academics, professionals and researchers to discuss and exchange research results. , innovative ideas and experiences to advance the fields of informatics, multimedia, cyber, and information systems," said Dr. Ermatita in her speech

"I also hope that this conference can become the main forum for researchers to produce research based on diverse international expertise and experience, as well as improve the quality of decisions," he concluded hopefully.

- ICIMCIS has submitted 105 papers, 65 papers accepted, 22 papers rejected and 18 papers withdrawn.
- SEINASKESI, has 29 papers collected, 20 papers accepted and 9 papers rejected.
- SENABDIKOM has submitted 26 papers, 19 papers accepted and 7 papers rejected.
