In his remarks, he explained that the three UPN Veterans would continue to develop and advance together if more and more things were collaborated together, "We try to record that of the approximately ten types of faculties that exist from the three UPNs, there are at least eight study programs that are the same. It is from these same study programs that we have to map them out and then we can collaborate so for today ladies and gentlemen the Heads of Institutions and the Deans are expected to be able to discuss this matter well. It is hoped that in 2022 the future will produce good results," explained Prof. Ir. Ahmad Fauzi

The leadership meeting was followed by a discussion session and the signing of the collaboration between FEB, FTI, FTM and FIK three UPN Veterans.
