

UPNVJ Holds Center for Converting Activities & Fulfillment of MBKM Reports

Wednesday, 16 February 2022 16:50 WIB

The atmosphere of the activity of filling out the conversion data recap *form* Independent Learning Independent Campus (MBKM)

HumasUPNVJ - UPN Veteran Jakarta held an activity to fill in the data conversion recap *form* for the Independent Learning Campus Merdeka (MBKM) on Wednesday, 02/16/2022 at the Bhinneka Tunggal Ika Auditorium of UPN Veteran Jakarta. This activity was attended by Anter Venus Vice Chancellor for Academic Affairs, Chair of LP3M Satria Yudha, Plt. Head of the Academic Bureau of Student Affairs Planning and Cooperation, Deputy Dean for Academic Affairs, Head of Study Program, program PIC and faculty operators.

The target of this activity is the collection of data and determination of MBKM activities in the form of structured courses and weighting of credits, filling in the main data of MBKM and MK participants in green sheets and converting MBKM activities into courses according to the study program curriculum.

UPNVJ Deputy Chancellor for Academic Affairs, Anter Venus when giving a presentation to *the audience* .

On this occasion the Deputy Chancellor for Academic Affairs gave an explanation regarding the course conversion flow, "There are several stages or flows that must be considered, starting from the AKPK Bureau which sends a letter in the attachment of the MBKM conversion data recap *form* to the faculty then the faculty operator helps fill in the eye data recap *form* MBKM conversion course, Deputy Dean of Academics and Head of Study Program converts MBKM courses according to the guidelines on the data recap *form* of the MBKM conversion course equipped with supporting data in the form of student study results cards or screenshots of *outbound* student study results, PIC MBKM *shares* an independent campus account with AKPK to coordinate faculty operators in filling out the course data recap *forms* and lastly the Deputy Chancellor for Academic Affairs will approve and proceed to the AKPK Bureau to be uploaded on the PDDKILTI Freeder, "explained Anter Venus.

Venus conveyed the importance of holding this event "Implementation of MBKM is included in the PK (Performance Agreement) between tertiary institutions and the Minister of Education and Culture and Research, Technology and Higher Education so that the reporting factor becomes very important to pay close attention to, and ensure that the reporting is correct, "Currently the problem we are facing is that the reporting format is still it's not 100% clear what to do, so from the results of the discussion and internal analysis we make it based on conversion. This means that all MBKM activities carried out by students must be converted into the applicable curriculum. Fortunately UPNVJ already has a 2020 curriculum that already uses the Merdeka Campus Curriculum and has provided 40 credits in it for the benefit of MBKM, namely 20 credits for PLPT and 20 credits for PLPS. Both are filled by elective courses," he added.

"There are two ways of conversion, namely direct and indirect. If it is indirect, it means that MBKM activities carried out by students (specifically non-exchange student activities) must be converted into available courses, while for student exchange activities it can be directly converted into credit score," closed Anter Venus.

Head of LP3M, Satria Yudhia when giving a presentation to *the audience*.
