As we know, this isra miraj is an overnight journey of Rasulullah SAW and of course we must interpret this commemoration of isra miraj as a momentum to improve our personal quality. My hope, I believe, is that according to the theme raised, namely, "The Relationship between Work Ethics and Increasing the Quality of Prayer," Erna Hernawati explained

Prof. Didin explained the meaning and significance of the Isra Miraj itself, the Isra Miraj event is an event of a night journey carried out by the Prophet Muhammad SAW. Tonight's journey took place on 27 Rajab in 621 AD or the 10th year of his prophethood. This event is a great miracle that can only be received by the Prophet Muhammad. Because, this night trip is very impossible for humans to do today. "In accordance with our theme today, "The Relationship between Work Ethics and Increasing the Quality of Prayer", which means that our prayers are of course very much related to the work ethic that we have. Prayer begins with intention, intention must be sincere because of Allah SWT, work must be intended sincerely so that it is worth worship in the eyes of Allah. How to maintain sincerity? Namely by; Don't really want to be known by other people, don't really want to be seen by other people, don't expect praise, don't want to be appreciated or treated special, and don't expect anything in return," explained Prof. Didin

Many things explained by Prof. Didin in his presentation related to the increase in work ethic with the quality of prayer that is owned.
