

200 Teachers Participate in Socialization of SNPMB 2023 at UPNVJ

Thursday, 08 December 2022 16:15 WIB

HumasUPNVJ - In the context of equal perception of the 2023 National Selection of New Student Admissions (SNPMB), the Education Examination Management Agency (BP3) trusts the Jakarta "Veteran" National Development University (UPNVJ) to host socialization which is held online and offline at the Bhinneka Tunggal Ika Auditorium , Pondok Labu UPNVJ Campus, South Jakarta, Thursday (8/12/2022).

On this agenda UPNVJ invited approximately 200 teachers and school principals in DKI Jakarta.

"On this occasion, ladies and gentlemen, you can have a direct discussion regarding the implementation of the 2023 SNPMB because of course there is a new transformation from the previous selection that you must understand," said the Chief Executive of the National Selection for New Student Admissions (SNPMB), Prof. Dr. Ir. Budi Prasetyo Widyobroto, DESS., DEA., IPU. Post.

It needs to be understood, the PTN 2023 National Selection of New Student Admissions (SNPMB) team is a team formed by the Minister of Education and Culture to prepare for PTN entry selection. Later, there will be three selection routes, namely achievement-based national selection (SNBP), test-based national selection (SNBT), and independent selection.

The difference in the name of the selection route was not followed by the selection capacity which was still the same in the previous year with a total capacity of 20% SNBP, 40% SNBT, 30% Mandiri.

On the occasion Prof. Budi explained about the School and Student Database (PDSS), school requirements and participant requirements.

"Different from the previous year, during the implementation of this year's SNBP, each student majoring in science, social studies or language was allowed to choose study programs at PTN. Each student could choose **two study programs from one PTN or two PTNs**. If you choose **two study programs, one must be in a PTN in the same province as the SMA/MA/SMK it originates from**. If you choose a study program, **you can choose a PTN in any province**," explained Prof. Budi.

In the UTBK-SNBT selection, Prof. Budi also gave his latest explanation, in 2023 there will be no science and social sciences anymore, the materials being tested include the **Scholastic Potential Test (TPS), Mathematical Reasoning, Literacy in Indonesian and Literacy in English**, with a test fee of IDR 200,000.

"The UTBK-SNBT test will be carried out in May 2023 with 2 batches," added Prof. Budi.

Overall the event ran smoothly and it was seen that the teachers were enthusiastic with the two-way explanation with Prof. Budi with explanations that were relaxed and easily understood by all invitees.
