

Thursday, 25 May 2023 10:33 WIB

HumasUPNVJ - Thursday, May 25 2023 is the fourth day of the 2023 Computer Based Writing Examination (UTBK) Batch II which was held at UPN "Veteran" Jakarta (UPNVJ).

Until today, thousands of participants have taken part in UTBK at UPNVJ, one of them is Raffi Maulana. Different from the other participants, Raffi came with his mother assisted by two sticks to help him walk.

"I have a knee injury, after surgery 2 weeks ago," explained Raffi upon arrival to the PR team.

With his condition, the public relations team offered him a vehicle to take him to the building where he was taking the test, but he refused on the grounds that he was still able to walk slowly.

Through campus security assistance and the Public Relations team, Raffi was accompanied and assisted to get to the location of the exam room.

On the way to the location, Raffi said that he had felt his knee injury from when he entered junior high school (SMP), but he didn't really pay attention to it, but after a lump and injury appeared after playing futsal some time ago, he had to be rushed to the hospital and undergo surgery.

"The doctor said it's getting better, all that's left is recovery, so I have to take the exam," Raffi explained enthusiastically.

Raffi hopes that his enthusiasm will produce good results by being accepted at his dream state university.
