The event which started at 13.00 WIB has the aim of increasing the number of *followers* or followers in order to develop their talents easily through a platform like Cliponyu. For this reason publications are needed to achieve these goals.

This event was filled with performances from bands from the Faculty of Law, Faculty of Computer Science and Faculty of Social and Political Sciences UPNVJ as well as bands from UKM UBV itself. In addition to the appearance of the band, which showed their action in the field of music, they also held a Photo *Contest* Competition which included 15-20 photographers who were none other than UPNVJ students.

Sponsors of this event were Huawei, Bolt and Calpico Water who participated in opening booths as a complement to this event.
