

Complete Park Facilities with Sports Equipment

Friday, 23 August 2024 09:24 WIB

UPNVJ PUBLIC RELATIONS - The existence of open spaces at the National Development University "Veteran" Jakarta has begun to be felt by students. In addition to being a Green Open Space (RTH), it is also a sports facility for UPNVJ academics. "In several open spaces / mini parks we provide sports equipment facilities like those in the gym but in a simple form with the same function," said the Chancellor of UPNVJ.

The existing open space will be equipped with various facilities so that all academicians feel comfortable when they want to exercise. Like in UPNVJ Pondok Labu for example, one of the open spaces is equipped with a library, simple gym equipment and chairs for relaxing. In addition, shady trees provide shade in the open space.

"In addition to the UPNVJ Pondok Labu campus, we will also equip gym equipment in the UPNVJ Limo open space as part of the facilities for students there," he explained.

The sports facilities located in front of the Dewi Sartika Building were inaugurated by the Vice Chancellor for Planning, Finance and General Affairs, Mrs. Netti Herawati on August 21, 2024.

"The sports facilities in the field can be used by all UPNVJ academicians for free. I hope that the academicians can make the area a center for fitness activities, as well as refreshing." He said.
