

Visiting UPNVJ, the Former Indonesian Minister of Health Presented a New Book on Immune Therapy

Sunday, 27 July 2025 13:39 WIB

UPNVJ Public Relations - The Chancellor of the National Development University "Veteran" Jakarta (UPNVJ) Prof. Dr. Anter Venus, MA., Comm received in person the latest book by Prof. Dr. dr. Terawan Agus Putranto, Sp.Rad(K), entitled "Immunotherapy Nusantara by Terawan with Dendritic Cell." The book was received during the former health minister's visit to the Pondok Labu UPNVJ campus on Tuesday, July 22, 2025.

The book comprehensively examines dendritic cell-based immune therapy—an innovative approach to medical care that combines academic science with modern health technology.

In the meeting, Prof. Terawan said that this work was edited by Dr. Taufiq Fredrik Pasiak, a neuroscience expert who currently serves as Dean of the Faculty of Medicine, UPNVJ.

The handover of this book symbolizes the spirit of scientific collaboration and motivates the UPNVJ academic community, especially students in the health sector, to continue developing impactful research and innovation.

The Chancellor of UPNVJ expressed his appreciation for Prof. Terawan's contribution in enriching the treasury of medical knowledge and encouraging scientific enthusiasm in the university environment.

"We truly appreciate Prof. Terawan's extraordinary work. This book not only adds to the scientific literature but also serves as a source of inspiration for students to continue working and innovating in medical research," said Prof. Venus.
