UPNVJ Public Relations â€” The 2026 Computer-Based Written Examination for the National Selection Based on Test (UTBK-SNBT) at the UPN "Veteran" Jakarta (UPNVJ) Limo Campus was conducted under strict supervision to ensure the security, order, and integrity of the exam. Upon participants' arrival, the committee implemented a series of disciplined screening procedures, including temperature checks and document verification, and clothing and belongings checks before entering the examination room.

Supervision is conducted to ensure all participants take the exam in accordance with applicable regulations and to prevent potential violations during the selection process. Each participant is first directed to the file inspection area to check their identity against their participant card and other supporting documents. Afterward, participants undergo further screening to ensure they have not brought any prohibited devices or objects into the examination room.

The UTBK-SNBT committee at UPNVJ Limo also deployed officers at several strategic locations, from the campus entrance, the waiting room, and the area in front of the examination room. This measure was taken to ensure orderly participant movement and a smooth exam process without disrupting the comfort of other participants.

In addition to the oversight aspect, the committee continues to prioritize friendly and focused service. Participants are provided with clear information regarding the exam process, room locations, and mandatory rules. This approach is part of UPNVJ's commitment to ensuring that the UTBK-SNBT implementation is not only orderly but also fosters a conducive exam environment.

Through strict supervision and organized services, UPNVJ affirms its commitment to maintaining the credibility of the implementation of the 2026 UTBK-SNBT. UPNVJ Chancellor, Prof. Dr. Anter Venus, MA, Comm, emphasized that integrity, order, and participant comfort are important parts in organizing a quality and accountable national selection.
